# About Me

Innovative front-end developer passionate about creating dynamic, user-friendly interfaces and robust applications. I bring technical expertise and creative problem-solving to every project, with experience spanning responsive websites, seamless user experiences, and efficient application development.

Driven by continuous learning and innovation, I'm excited to contribute my skills to forward-thinking teams building the future of web experiences.

# Core Technical Skills

## React.js

Building interactive, component-based applications with modern hooks and state management

## HTML5 & CSS

Crafting semantic, accessible markup with responsive styling and animations

## JavaScript

Writing clean, efficient code with ES6+ features and asynchronous programming

## React Router

Implementing dynamic routing and navigation for seamless user experiences

## Redux

Managing complex application state with predictable data flow patterns

## Six Sigma

Applying quality management principles to development processes

# Professional Experience

1

July 2024 - January 2025

**Packaged App Development Associate** at Accenture,  
Chennai

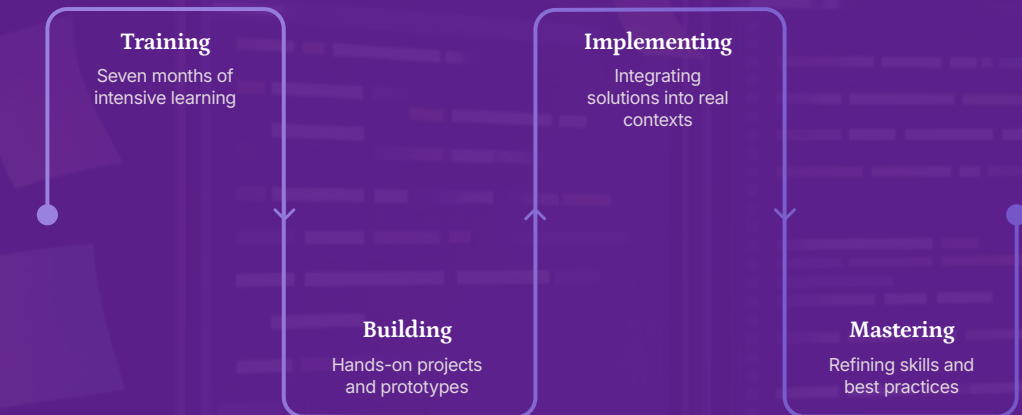

2

October 2023 - November 2023

**Web Development Intern** at CDAC Centre for Development of  
Advanced Computing, Chennai

# Accenture Journey

Seven months of intensive growth in React.js and modern front-end development methodologies.

## Intensive Training

7 months mastering React.js and front-end development methodologies.

## Hands-On Projects

Developed two functional projects, strengthening debugging and problem-solving abilities.

## Advanced Features

Implemented dynamic routing with React Router and consumed APIs for real-time data display.

## Technical Expertise

Built interactive, responsive web applications using React.js, JavaScript, HTML5, and CSS.

# CDAC Internship Experience

## Full-Stack Development

Gained hands-on experience using Spring Boot for backend development

## Database Management

Worked with PostgreSQL and utilized pgAdmin4 for efficient database operations

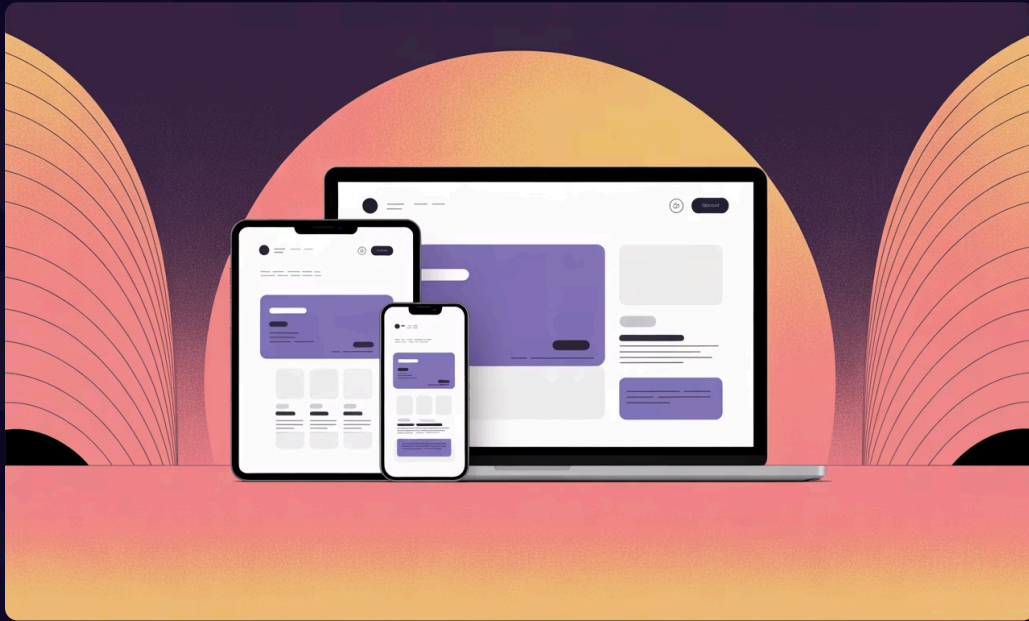

## SQL Optimization

Performed schema design and SQL query optimization for improved performance

# Development Capabilities

## Responsive Design

Creating websites that adapt seamlessly across all devices and screen sizes

## User Experience

Crafting intuitive interfaces that prioritize user needs and accessibility

## API Integration

Consuming RESTful APIs to display dynamic, real-time data in applications

## Problem Solving

Debugging complex issues with systematic approaches and creative solutions

# Education & Foundation

## Bachelor of Technology

Information Technology

Prince Shri Venkateshwara Padmavathy Engineering College

2020 - 2024 | 8.5 CGPA

Built a strong foundation in computer science fundamentals, software engineering principles, and modern development practices during four years of comprehensive technical education.

# What I Bring to Your Team

## Innovation

Fresh perspectives and creative solutions to technical challenges

## Growth Mindset

Continuous learning and adaptation to emerging technologies

## Collaboration

Strong communication and teamwork in agile environments

## Quality Focus

Commitment to clean code and best development practices

# Professional Interests

## Technical Development

Building innovative solutions with cutting-edge technologies

## Functional Design

Creating user-friendly interfaces and experiences

## Business Consulting

Bridging technology and business objectives

## Hybrid Solutions

Combining multiple disciplines for comprehensive results

# Let's Build Something Amazing

I'm actively seeking opportunities to contribute my skills to innovative projects and forward-thinking teams. Whether you're building the next generation of web applications or transforming user experiences, I'd love to connect.

Based in Chennai, Tamil Nadu, India, I'm ready to bring passion, technical expertise, and creative problem-solving to your organization.
